

Committee for SC & ST

Our social structure has not been so developed that there should be a reliable system to monitor any discrimination in the name of caste and color. The college has a committee to monitor and intervene into such issues if raised by any members of student or staff community. The Committee will consider the issue and prima-facie enquiry will be conducted. Depending on the severity assessed by the committee, the action will be initiated either internally or by higher authorization concerned. The committee is chaired by the Principal.
