

INTERNET AND COMMON COMPUTING FACILITY

This lab is equipped with High speed, BSNL broadband internet connection through OFC which is provided by BSNL under the scheme of CONTINUE EDUCATION CELL. This will ensure ample Net facilities in the Campus.

Central Computing Facility (CCF) Centre has one of the envying infrastructures in the region in terms of computing facilities, Internet facility Centre is well equipped with the latest machines. It provides Internet facilities to the users in the CCF, all Departments, Library, Faculty rooms and Administrative office. The Central Computing Facility is dedicated to create and maintain a Computing environment providing quality professional services to students, staff and administration. Students are encouraged to make full use of the facility for academic learning besides training themselves in modern computer applications and software skills

Smart TV and sound system are installed in the CCF for conducting presentations. The net lab will be available to the students from 8.30am to 5.00pm.
