

COUNSELLING CELL

Government Polytechnic College, Palakkad.

The counselling cell is formed in college to create a comfortable and happy environment for each student of our college where they can discuss and find solutions to problems regarding their personal, academic and social life. The life of each student is precious and should not be lost because of our ignorance. The counseling cell will try to identify their inner strength which will help to resolve any kind of problems that they might face and facilitate them to unravel their personal, academic and psychological issues.

Trained Counsellors and Psychologists provide personal counselling sessions at the College to help students to resolve any kind of problems they face in their life, strictly maintaining confidentiality. Hence the Counselling Cell provides a platform for students to achieve both their professional and personal goals with greater self-awareness, self-esteem, understanding and a focus. The cell helps to develop a positive attitude to meet the challenges of the society. The College Counselling Cell 2021-22 is constituted with the following members.
