

## VISITING FACULTY PROGRAM

The purpose of the **visiting faculty** scheme is to impart a good blend of theoretical and practical input to the students of various branches. In this context, every department is encouraged to have more sessions conducted by visiting faculties from reputed industries. Visiting Faculty Scheme is introduced in technical institutions by the Government to give the latest and updated technologies to the students. Technologies are changing day by day. So, the students must be given an awareness of the changing technologies. Eminent persons from industries, Professors of Engineering Colleges and other technical education institutions can be arranged to give Lectures or Seminars on latest trends in technologies.
